Dear Ms. Cobb:

We have reviewed the information provided for the above referenced project. This property is within Humboldt Park, which was listed on the National Register of Historic Places on February 24, 1992.

In our opinion the project meets the Secretary of the Interior's "Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings" provided that the following condition is met:

1. Site plans, buildings plans, and elevations of the new buildings must be submitted to this office for review and comment as they are developed. The new building's design and materials must be compatible with the historic character of Humboldt Park. The proposed location of the new building is approved.

Revising the project to meet these conditions and carrying out the project as revised evidences compliance with the Illinois State Agency Historic Resources Preservation Act.

If you have any questions, please call 217/782-4836.

Sincerely,

Robert F. Appleman
Deputy State Historic
Preservation Officer
